**MICROBIOLOGIST**

page 1 of 1

Accredited method/techniques used: Biochemical methods, WAL M3 (faecal coliform); enzyme substrate WAL M4 (*E.coli*) for rivers and effluents.

This report relates to the samples tested and identified in this report. The laboratory does not accept responsibility for the quality of the samples in terms of temperature during transit, age, etc. supplied to the laboratory or for comments added by another party. Test reports shall be reproduced in full and not only in part. Written approval must be obtained in writing from the Laboratory manager before certain parts of the report is published or reproduced.

**Please arrange with the laboratory BEFORE taking the samples.** Bacteriological samples must be analysed within  $\pm 6$  hours. Samples are therefore accepted by appointment only. Please allow two days for completion of the tests. This laboratory is normally closed on **Public holidays, Saturdays and Sundays.**
